

BECOMING ACTIVE CITIZENS THROUGH MINECRAFT- ENHANCED VIRTUAL TOURISM

MINETOURL

MINETOURLPROJECTEU/

EXPLORING LEARNING THROUGH...

MINECRAFT EDUCATION

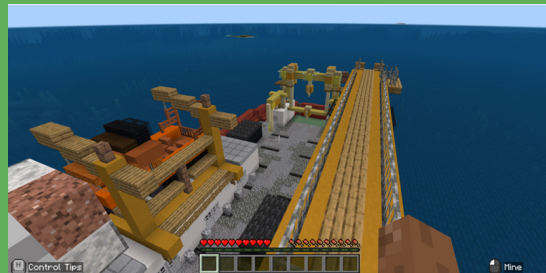

Minecraft Education offers interactive worlds that inspire **creativity, teamwork, and problem-solving** while teaching **real-world skills**

AI Job Fair

Explore an AI-powered cityscape and discover how artificial intelligence is shaping careers from healthcare to design. Students design their own exhibit while learning how AI transforms the world.

Ocean Heroes
Embark on a marine conservation adventure! Students investigate ocean ecosystems, tackle challenges in mangroves, reefs, and kelp forests, and build ocean literacy while developing problem-solving skills.

Wheel of Steve

Inspired by a Minecraft Movie, this adventure brings students together in cooperative mini-games that build creativity, collaboration, communication, and critical thinking.

AIM OF THE GAME
